

Fairtree Protea Worldwide Flexible Equity SNN QI Hedge Fund

Minimum Disclosure Document - Class 1

31 October 2018

Fund Profile

The fund is a flexible long/short equity hedge fund with the objective of generating above-average returns by following a 'quantamental' investment approach, combining traditional fundamental analysis with quantitative investment techniques. The investment manager systematically identifies individual mispriced securities whilst ensuring sufficient diversification to guard against inappropriate risk concentration. The fund has exposure to listed securities worldwide.

Investment Strategy

The portfolio is managed as a long/short hedge fund, focused on extracting alpha returns from equity markets worldwide. Its core strategy is to be long undervalued equities and short overvalued equities whilst ensuring that there is sufficient diversification to guard against inappropriate risk concentration. The equities are selected by following a "quantamental" investment approach, which combines a traditional fundamental understanding of the fair value of listed equity shares with analysis of the business's competitive environment, economic growth, broad economic themes and relative valuations.

*The inception date for the portfolio is 1 October 2015. The historical performance figures until the end of 31 August 2016 reflect performance achieved prior to CISCA regulation. The portfolio has been transitioned under CISCA regulations on 1 September 2016 and has since been managed as a regulated product. The annualized total return is the average return earned by an investment each year over a given time period, since date of the launch of the fund. Actual annual figures are available from the manager on request. The highest and lowest 1 year returns represent the highest and lowest actual returns achieved during a 12 month rolling period year since the original launch date of the portfolio. The performance figures given show the yield on a Net Asset value ("NAV") basis. The yield figure is not a forecast. Performance is not guaranteed and investors should not accept it as representing expected future performance. Individual investor performance may differ as a result of initial fees, time of entry/actual investment date, date of reinvestment, and dividends withholding tax. Performance is calculated for a lump sum investment on a Net Asset Value basis. The performance figures are reported net of fees with income reinvested. Jean Pierre Verster took over as portfolio manager from 1 September 2016 and the performance before September 2016 does not necessarily reflect his investment style and approach.

Risk Profile

Risk Level: Low Low-Medium Medium Med-High High

The risk category shown is not guaranteed and may change over time. The lowest category does not mean the investment is risk free. There may be other special areas of risk relating to the investment including liquidity risk, credit risk, market risk, and settlement risk. Sanne Management Company (RF) (Pty) Ltd, ("the manager"), and the investment manager do not render financial advice. Our risk indicator does not imply that the portfolio is suitable for all types of investors. You are advised to consult your financial adviser.

Portfolio Valuation & Transaction Cut-Off

Portfolios are valued monthly. The cut off time for processing investment subscription is 10:00am on the last day of the month prior to enable processing for investment on the first day of the next month.

Total Expense Ratio

A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs are a necessary cost in administering the financial product and impacts financial product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER. The TER is reported excluding performance fees for the first six months of the portfolio. The Manager has applied its mind hereto and is of the view that any reporting of TER with performance fee at this stage may be inaccurate and potentially misleading to investors.

Market Commentary

October saw a sharp sell-off across global equity markets, with the MSCI World Index dropping by over 7% in US Dollars (USD) and the FTSE/JSE All-Share Index dropping by over 5% in South African Rands (ZAR). The fund held up relatively well given these circumstances, slipping by just over 2% for the month. We were more active than usual, taking advantage of the volatility by increasing many of our Short positions early in the month as the first bearish signs appeared, and selectively adding Long positions near the end of the month, including our first purchases of stocks listed in Sweden. Our 'Quantamental' investment process continues to assist us in identifying discrepancies between price and value and is a valuable tool in guarding against psychological biases, leading to better investment decision-making.

Our aggregate Long positions in Danish Krone (DKK) and Swedish Krone (SEK) made gains, while aggregate Longs in Canadian Dollars (CAD), USD, British Pounds (GBP), Euros (EUR), Swiss Francs (CHF), Norwegian Krone (NOK), ZAR, Singaporean Dollars (SGD), Hong Kong Dollars (HKD), Japanese Yen (JPY) and Australian Dollars (AUD) contributed negatively. Our Long exposure to the Information Technology sector was a major contributor to our losses.

Aggregate Short positions in CAD, USD, GBP, EUR, CHF, DKK, NOK, ZAR, SGD and JPY generated gains, while our aggregate Shorts in AUD detracted marginally from performance. Our Short book is well diversified, with 77 individual positions.

Our Special Situations positions detracted slightly from overall performance. We have been researching global best practice and legal precedent regarding the protection of minority rights, which will benefit us going forward in asserting our rights where infringement is attempted (particularly in the case of buy-outs at unreasonable prices).

Our Bullish Equity Options generated a small loss for the month. We did not have Bearish Option structures in place after the September expiry of our previous options, which turned out to be a material opportunity cost, given the recent sell-off. Alas, hindsight is always 20/20.

Due to the USDZAR currency hedge (put spread) that we have in place, we did not enjoy the full benefit of the USDZAR exchange rate weakening by more than 4%, with the currency move adding roughly 2% to our ZAR return for month.

Please Note: The above commentary is based on reasonable assumptions and is not guaranteed to occur.

Mandatory Disclosures

Investment Manager: Fairtree Asset Management (Pty) Ltd, **Registration Number:** 2004/033269/07 is an authorised Financial Services Provider (FSP25917) under the Financial Advisory and Intermediary Services Act (No.37 of 2002), to act in the capacity as investment manager. This information is not advice, as defined in the Financial Advisory and Intermediary Services Act (No.37 of 2002). Please be advised that there may be representatives acting under supervision. **Physical Address:** Willowbridge Place, Cnr. Carl Cronje and Old Oak Road, Bellville, 7530. **Postal Address:** PO Box 4124, Tygervalley, 7536. **Telephone Number:** +27 86 176 0760. **Website:** www.fairtree.com.

Collective Investment Schemes are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and can engage in scrip lending and borrowing. A schedule of fees, charges and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from Sanne Management Company (RF)(Pty) Ltd ("the Manager"). The Manager does not provide any guarantee in respect to the capital or the return of the portfolio. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressure and in such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. Commission and incentives may be paid, and if so, are included in the overall costs. The Manager may close the portfolio to new investors in order to manage it efficiently according to its mandate. Prices are published monthly on our website and local media. Additional information, including key investor information documents, minimum disclosure documents, as well as other information relating to the basis on which the manager undertakes to repurchase participatory interests offered to it, and the basis on which selling and repurchase prices will be calculated, is available, free of charge, on request from the Manager. The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Where foreign investments are included in the portfolio, performance is further affected by uncertainties such as changes in government policy, political risks, tax risks, settlement risks, foreign exchange risks, and other legal or regulatory developments. The Manager ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy. The Manager is registered and approved by the Financial Sector Conduct Authority under CISCA. The Manager retains full legal responsibility for the portfolio. FirstRand Bank Limited, acting through the RMB Custody and Trustee Division, is the appointed trustee. Fairtree Asset Management (Pty) Ltd, FSP No. 25917, is authorised under the Financial Advisory and Intermediary Services Act 37 of 2002 to render investment management services.
